Re: Water Monitoring Parameter Updates, Co-Op Mining Company, Trail Canyon Mine, ACT/015/021-93E, Bear Canyon Mine, ACT/015/025-93H, Folder #3, Emery County, Utah

Dear Mr. Owen:

The above-noted amendment to delete specified parameters (Ba, Cr, F-, Hg, Ni, and S-) has been approved. Please submit three finalized copies of this change by September 30, 1993.

In regards to changing the "sampling" technique which would filter samples in the field into acidified bottles for the dissolved analyses, this is not approved at this time. The Division has decided not to change sampling techniques for any operators at this time. The sampling technique may change, however, at some future date.

If you have any questions, please call me.

Sincerely,

A handwritten signature in cursive script, reading 'Pamela Grubaugh-Littig'.

Pamela Grubaugh-Littig  
Permit Supervisor
